| 1992.     | C.R.D.McDougall      |       |                     |

# Norfolk Punt Register

Considerable effort has been taken to ensure this register is accurate but between the passage of time and contradictions between sources, some inaccuracies are inevitable. If this proves to be the case, perhaps corrected details could be passed to the Class Secretary to update his records.

Unregistered early punts.

|                   |       |                          |  |
|-------------------|-------|--------------------------|--|
| <i>Hetebe.</i>    | 1925. | W.F.Jermy, J.ff.Edge     | LOA 22' (described by Stewart Morris as "a proper gun punt") |

LOA 22'

Owners:

2005. John Parker

## Acknowledgments

The Norfolk Punt Class history has been great fun over the year or so that it has taken to complete and it's been a delight to be so warmly received into so many family histories. During the course of research there have been several instances where the facts have differed by source and it has been necessary to take an editorial decision on the most reasonable interpretation. Errors in this respect are entirely mine.

History isn't supposed to be original work and I have drawn widely from as many sources as I could find. In no particular order I have to thank the Norfolk Punt Club for access to their archives. Tom Clarke, Andrew Wolstenholme, Peter Bainbridge. Thomas Vaughan, (International 14 fleet archivist), Robert Malster, Peter Tracey, Jennifer Broom (nee Woods) for photos and permission to reproduce from her biography of her father. I have plundered Gerald Sambrooke Sturgess offerings on the club history. Ken Clabburn permitted access to his family photographs and Robert Bond's Press cuttings. The Eastern Daily Press, Yachting Monthly, Yachting World, Yachts & Yachting, Stephen Jones and Phil Morrison have all graciously consented to reproduction of their work. Richard Parker, Chris Tovell & Marion Bown, Paul Bown, Mike Evans, Mary Wyche, Celia Scott, Jane de Quincey, David Adler, Richard Sadler, James Hoseason, Judy Macdonald and her brother Peter Sturgess, Hugh Wylam and his sister Karen Curtis, Andrew and Mrs. Jo. Anderson, Derek Gibbs, Tom Harmer, Hugh Tusting, Rachel Clayton and her brother Nick Mockridge - all have provided photographs or anecdotes. Lists are odious and anyone unable to find their spectacles is bound to have overlooked someone. I can only hope that an apology will suffice.

I hope that readers will feel able to excuse the reproduction quality of several of the older photographs. Whilst I hope their content will prove interesting, standards have improved dramatically since many of them were taken and several have deteriorated with age. The bird sketches used as 'footers' on several pages were drawn by Roland Green of Hickling and first reproduced as a single page in 'Hamilton's Navigations' during the 1950s.

Norfolk Punts have traditionally been an adventurous class, yet after eighty years, remain *Norfolk* Punts. For all their travelling, punts have somehow never quite managed to colonise south of the Waveney. To an outsider, the class is a fascinating blend of the hi-tech and the eccentric. I don't think that I can recall another where so many individuals have felt obliged to own more than one example. Or a club so enthralled by tea. The rest of the yachting fraternity can only look on with incredulity at a sailing club that has survived and prospered without a bar. With this goes my thanks and good wishes for the next eighty years.

Jamie Campbell

Gorleston on sea.
